***Your partner in
pharmaceutical
warehousing
and transport***

Pharmaceutical logistics handling without the headaches?

Choose Dobbe Transport's GDP services.
Certified, reliable and centrally located.

Is your current storage capacity still sufficient to accommodate your inventory in a responsible manner? Are your transportation lanes flexible enough, reliable and properly equipped for international operations? Or are you looking for a partner who can provide both storage and transport, as well as taking care of your customs formalities?

At Dobbe Transport, we provide GDP-certified national and international transport services. You can also use our wholesale permit for the long-term storage of your pharmaceutical products in accordance with EU GDP guidelines. If you wish, we can also take care of all your customs formalities.

Why customers choose our service:

Storage

- 1 Centrally located cooling facilities with quick access to the A4 motorway between Rotterdam and Amsterdam Airport.
- 2 A state-of-the-art cooling facility maintained at temperatures of 2-8° Celsius or 15-25° Celsius, and with 24/7 temperature monitoring, designed and certified for the storage of pharmaceutical products.
- 3 A Warehouse Management System that provides you with 24/7 insight into your current inventory and order status.
- 4 A wholesale permit for the long-term storage of pharmaceuticals.
- 5 AEO certification and a customs bonded warehouse, enabling us to offer you all customs clearance-related services. Container handling is also included.

Transport

- 1 Diversity and flexibility in GDP transport:
 - A A modern, environmentally friendly refrigerated fleet.
 - B Combination trucks that enable us to move your order at dual temperatures in one single transport.
- 2 Temperature monitoring and reporting during transport.
- 3 GDP certification and thorough knowledge of and experience in pharmaceutical distribution.
- 4 A broad national and international distribution network covering Benelux, France, Austria and Germany.
- 5 A punctuality level of 99,8%, damage-free.

If you would like to know more about what we can do for you, please do not hesitate to contact us for more information. We look forward introducing our services to you!
